

Dr. Ritesh Vijay, Scientist-F & Head, Wastewater Management Division, CSIR-NEERI and Principal Inventor of the UCCW-based STP participated as a technical expert in the webinar on ‘Water-Positive Hospitality: A New Paradigm for Sustainable Operations’, organised by Indian Green Building Council (IGBC), Confederation of Indian Industry (CII).

He delivered a session on “Grey Water and Black Water Recycling: Sustainable Treatment and Reuse Technologies,” highlighting innovative approaches for sustainable wastewater treatment, recycling and water reuse in the hospitality sector. His session highlighted CSIR-NEERI’s work in water recycling, resource recovery and sustainable sanitation.
