

Ms. Monisha, Project Associate (PAT), under the supervision of Dr. Asha Lalwani, Scientist-F, Air Quality Management Division, CSIR-NEERI, received the Best Oral Presentation Award for their work titled “Machine Learning Approaches to Study Hourly Ground-Level Ozone Dynamics in Chandrapur” at the International Conference on Innovations in Physical, Chemical & Biological Sciences for Sustainable Development (IPCBSSD–2026), held recently.

The conference was organized by the Department of Chemistry, GN College of Science, Ballarpur, in collaboration with the Association of Chemistry Teachers (ACT), Mumbai.

Their work highlighted the effectiveness of machine learning methods in understanding ozone dynamics and supporting sustainable air quality assessment in industrial environments.
