

CSIR-NEERI and L&T Water Technology Centre explore long-term collaboration in water and used water management

A team from CSIR-National Environmental Engineering Research Institute (CSIR-NEERI) comprising Dr. S. Venkata Mohan, Director, CSIR-NEERI; Dr. R. Sivacoumar, Chief Scientist & Head, CSIR-NEERI Chennai Zonal Centre, and Er. Karthik R., Principal Scientist, CSIR-NEERI visited the L&T Water Technology Centre (WTC), Kanchipuram, on 31st October 2025. During the visit, the CSIR-NEERI team held in-depth discussions with Mr. Rajeevan, Chief Technology Officer, WTC, Dr. Karunanidhi, Deputy General Manager, and Dr. Vijay, Head of L&T WTC. The meeting focused on identifying and developing strategic areas of collaboration in the water and wastewater domains. Both institutions expressed their commitment to building a long-term partnership aimed at advancing solutions for water resource management and environmental sustainability. This engagement marks a significant step toward fostering industry-research synergy and driving impactful technological advancements for a sustainable future.
