Dr. Krishnamurthi Kannan, Scientist-G & Chair, EHT Division, CSIR-NEERI was invited to deliver a keynote address at the International Conference on Air Quality Monitoring and Modelling (AQMM 2026), held at the Department of Civil Engineering, Kumaraguru College of Technology, Coimbatore. He also participated in a panel discussion, sharing his research experience and expertise on emerging challenges, innovative approaches, and future directions in air quality monitoring and modelling. His contributions enriched the technical deliberations and provided valuable perspectives to faculty members, research scholars, students, and delegates from across the globe. The organizing committee appreciated his valuable contribution and knowledge sharing, expressing confidence that the interaction would pave the way for continued engagement and future academic and research collaborations.
