

Pleased to share that CSIR-NEERI has been recognised as an ICMR Collaborating Centre of Excellence (ICMR-CCoE) from 2026. This recognition adds to its earlier designation as a WHO Collaborating Centre and Reference Laboratory for CoViNet since 2024, marking a proud milestone that strengthens India's leadership in environmental health, epidemiology, and pandemic preparedness. Dr. Krishna Khairnar, Senior Principal Scientist, Environmental Epidemiology & Pandemic Management (EE&PM) Sub-Vertical, CSIR-NEERI, is leading this initiative as the Principal Investigator.
