

A Nuclear Sector Training programme was conducted at CSIR-NEERI, Nagpur, culminating on 25 November 2025 in the presence of senior officials from Nuclear Power Corporation of India Limited (NPCIL), including Shri S. B. Joshi, Executive Director, and Dr. Jitendra Singh, Associate Director. The training focused on strengthening CSIR-NEERI's technical capabilities in the nuclear sector, with sessions covering environmental assessments, regulatory requirements, safety considerations, and sector-specific project experience. During the closing session, participants who successfully completed the training received certificates, and Dr. Padma Rao, Chair (EIAAP Vertical), presented insights into the historical perspective of nuclear power plant projects undertaken by CSIR-NEERI. NPCIL officials also guided the trainees on the requirements for the proposed QCI-NABET accreditation in the Nuclear Sector, while Dr. S. Venkata Mohan, Director, CSIR-NEERI, emphasized that securing this accreditation will be strategically important for expanding CSIR-NEERI's consultancy portfolio and enhancing its leadership in environmental assessments for the nuclear industry.
