

Office of C-SUM at Delhi

CSIR-NEERI is already working on various problems of urban set up through its dedicated center called as C-SUM i.e. Centre for Strategic Urban Management (C-SUM). The Centre operates from NEERI Nagpur. On the occasion of 77th Foundation Day of CSIR on 26th September 2018, Dr. Rakesh Kumar, Director, NEERI has decided to create office of C-SUM in Delhi.

C-SUM of Delhi office will address the local environmental issues on priority to better achieve sustainable urbanization with appropriate environmental planning, management capacity and policy application. Additionally, it will assist other government agencies in effective implementation of strategies with respect to water and wastewater management, management of urban flooding, storm water and sanitation. Innovative technological solutions will be provided for the site-specific sewage and wastewater treatment. C-SUM will also suggest waste management strategies for betterment of environment and health.

Broad Scope of work
