

# International Workshop on "Assessment of Environmental, Occupational Health and Safety"

January 28-29, 2019

Organized by

CSIR-National Environmental Engineering  
Research Institute (CSIR-NEERI)  
(Constituent Laboratory of  
CSIR, New Delhi, India)  
Nehru Marg, Nagpur 440 020, India

Society for Advancement of Occupational  
and Environmental Health (SAOEH)

B-22 New Krishna Park, Near Dhoulai Piao,  
Shivaji Marg, New Delhi - 110 018

## About the Workshop

The workshop organized jointly by CSIR-NEERI and SAOEH will explore the occupational & environmental health improvement based on the new policies and practices in place.

Day one of the workshop will involve discussion on the assessment of national & international health & safety policies, and their impact on workers health. The challenges and work cultures impeding the implementation of new standards at different industries will be discussed in detail. Also to study ideas to overcome these issues in up keeping of workers safety along with the implementation and assessment strategies will be elaborated. This workshop will cater to clinicians and environmental health experts as a part of agenda's goal to disseminate new information related to environmental, occupational health & policy.

Day two of the workshop will explore current topics on occupational & environmental health. The workshop is also designed to improve attendees competence in the prevention, diagnosis & treatment of worker related injuries/diseases with the intention of improving health of workers.

The health experts will discuss how to implement these policies effectively at various work places such as mines, industries. There will be a field visit to nearby mines or industries.

## About SAOEH

No other NGO (A Non Profit Organization) with so few resources has done such original work in the field of occupational and environmental health as SAOEH. It helped Centre for Occupational and Environmental Health (COEH) at Maulana Azad Medical College (MAMC) in holding four highly acclaimed International conferences and symposium on the subject bringing in world renowned experts to India. It is a partner in WHO Global Programme for Elimination of Lead from the Paint and helped Delhi government to make Delhi healthcare mercury free, one of the few cities in South Asia to achieve that distinction. Besides society has conducted numerous workshops and trained many in the field. The Occupational and Environmental Health and Chemical Safety is the most important area where country lacks world class expertise and offers its expertise to the Ministry of Environment and Forests and Climate Change. The Society has an internationally acclaimed expert who underwent training in the best centres in UK and US.

## About Nagpur

Nagpur city lies along the Nag River and is situated almost at the geographic centre of India. The present city was founded by Bakht Buland, a Gond King. After Indian independence, Nagpur was the capital of The Central Province and Berar till 1956, when Maharashtra state was created. The zero milestone is in Nagpur. All major highways NH-7 (Varanasi-Kanyakumari) and NH-6 (Mumbai-Sambhalpur-Kolkata) pass through the city as do all major railway trunk routes (Mumbai, Chennai, Howrah and Delhi). Now It is the Vice capital of the Maharashtra state.
