

ENVIRONMENTAL IMPACT SUSTAINABILITY DIVISION

May 8, 2017

Two Research Associate (RA) are required to be recruited in following projects

Sr. No.	Project Title	Project No.	Position	Desired Qualification
1	Wet air oxidation assisted biological treatment of leachates containing emulsified and solubilized relacitrant curde oil pollutants	G-1-2196	Research Associate	Ph.D. (Biotechnology or allied subject)
2	On-site high density microalgae cultivation for enhanced biomass and lipid productivity: Use of wastewater and commercial Fertilizers as nutrients, CO ₂ utilization	GAP-1-2238	Research Associate	Ph.D. (Microbiology/Biochemistry / Botany or allied subject)

Both above subjects have financial provision for Research Associate (RA) position and necessary concurrence has been obtained from F&A section. Since both project needs Ph.D. candidates with project specific experience it is requested to advertise these positions for selecting suitable candidates.

Submitted for kind approval.
