

Expression of Interest

CSIR-National Environmental Engineering Research Institute (NEERI), Nagpur has developed – RENEU which is for treatment of sewage in Nallah; and by employing physical and biological operations in the aerobic and facultative environment to degrade sewage.

This technology is going to be installed and demonstrated in Delhi. In this regard an Expression of Interest (EOI) is invited from the reputed firms and agencies to associate with CSIR-NEERI for implementation of RENEU in the field who have adequate knowledge and are willing to participate with their own funds and resources. You are requested to submit your interest, credentials of your firm/company along with financial support for implementation of RENEU.

Last date of submission of EOI (Extended): October 11, 2018
