

## CSIR-NEERI's Training Programs (December 2017 – May 2023)

S.N.	Title	Duration
1	Basics of Environment	December 11-22, 2017
2	Environmental Impact Assessment (EIA)	Feb. 05-09, 2018
3	Accidental Spill – Emergency Response and Environmental Impact Assessment – Future Perspective	September 25-27, 2018
4	Environmental Impact Assessment (EIA)	October 29 – November 02, 2018
5	Environmental Management	December 10-14, 2018
6	Environmental Engineering and Environmental Management	January 21- 25, 2019
7	CETP Operation and Maintenance	September 03-06, 2019
8	Advance Instrumental Analytical Techniques and Preventive Maintenance	September 18-20, 2019
9	Plastic Waste Management	September 24 2019
10	Accidental Spill-Emergency Response and Environmental Impact Assessment – Future Perspective	November 05-07, 2019
11	Environmental Management	December 09-13, 2019
12	Environmental Impact Assessment (EIA)	December 16-20, 2019
13	Soil Quality Assessment & Remediation	February 04-06, 2020
14	Ecology and Biodiversity for Environmental Impact Assessment Projects	February 19-21, 2020
15	Statistical Tools for Environmental Studies	March 04, 2020
16	Know Your Environment	September 22, 2020
17	Metagenomics & Environmental Pollution Control	October 05, 2020
18	Basics of Air Quality Monitoring & Management	October 06-07, 2020
19	Water: Quantity & Quality Aspects	October 20-21, 2020
20	Soil Quality Assessment	November 09, 2020
21	Land Management of Mining Waste (Spoil Dumps)	November 10, 2020
22	Health Risk Assessment of Population	November 24-26, 2020
23	Remote Sensing & Modelling for Environmental Systems	December 01, 2020
24	Environmental Impact Assessment (EIA)	December 07-11, 2020
25	Air Quality Monitoring For Key Air Pollution Parameter	December 16-18, 2020
26	Ecology and Biodiversity for Environmental Impact Assessment Projects	January 19-21, 2021
27	Air Pollution Management in Urban Areas (including emission inventory, meteorology, modelling and management aspects)	February 02-04, 2021
28	Bio Remediation and Bioprocess Optimization for Organic Waste	February 16, 2021
29	Development of Bamboo Diversity on Contaminated Areas / Fly Ash Dump / Degraded Sites and Surroundings	February 18, 2021
30	Wastewater Treatment Processes	February 23-26, 2021
31	Water Safety Plan	March 04-05, 2021
32	Municipal Solid and Hazardous Waste Management	March 09-10, 2021
33	Air Quality Monitoring	March 16-17, 2021
34	Environment and Health	March 22, 2021
35	Sophisticated Environmental Analytical Techniques	March 23-25, 2021
36	Publication Ethics	October 11, 2021
37	Water Quality Monitoring and Management	October 20-22, 2021

38	Biological Monitoring Analysis and Testing(Microbiology, Bio-Assay and Bio-monitoring) SOPs, Data Interpretation and Quality Assurance	October 28-29, 2021
39	Gender Equality	November 08,2021
40	Eco-rejuvenation and Biodiversity Development along the Riverbeds and Landslides areas using Bioengineering Approach for Ecological Sustainability	November 11, 2021
41	Workplace Safety	November 16,2021
42	Environmental Impact Assessment (EIA)	November 22 - 26, 2021
43	Good Laboratory Practices (GLP)	December 10,2021
44	Soil Quality Assessment and Land Management	December 14-15, 2021
45	Eco-rejuvenation of Fly Ash Dump using Bamboo Diversityfor Pollution Mitigation and Ecological Sustainability	December 23, 2021
46	Ecology and Biodiversity	January 11-13, 2022
47	Analytical Instrumentation Techniques for Environmental 'Organic Contaminants'	January 18-20, 2022
48	Analytical Instrumentation Techniques for Environmental 'Inorganic Contaminants'	February 09, 2022
49	Pesticide Residues Analysis in Environmental Matrices andits QA/QC in context of ISO-17025 Framework	February 22, 2022
50	Environmental Audit	March 01-02,2022
51	Municipal Solid and Hazardous Waste Management	March 09-10, 2022
52	Advanced Instrumentation Techniques Especially Ion Chromatograph	March 23-25,2022
53	Eco-toxicity and Environmental Monitoring Environmental Toxicology Group	March 24-25, 2022
54	Practical aspects of Process safety in Laboratory	March 31,2022
55	Soil Quality Assessment and Land Management	September 14-15, 2022
56	Efficient Operation, Maintenance, Performance and Design of Wastewater Treatment Plants	September 20-22, 2022
57	Industrial Waste and Wastewater Management for Grossly Polluting Industries (GPIs) in the NCR of Delhi	September 28-30, 2022
58	Biological Monitoring & Bio-assay Studies for EC conditions: Sampling, Analysis, Data Interpretation & Quality Assurance	October 11-12 ,2022
59	Water Quality: Testing and Data Management	October 17-19, 2022
60	Analytical Instrumentation Techniques for Measurement of Environmental Contaminants	November 01-02, 2022
61	Water Quality Testing and Analysis	November 15-17, 2022
62	Ecology and Biodiversity Studies for EIA Projects	December 07-09, 2022
63	Sophisticated Instruments used for the Water Quality Analysis	December 14-16, 2022
64	Environmental Impact Assessment (EIA)	January 10-13, 2023
65	Air Pollution Emission Inventory, Modelling & Management and Air Monitoring as per EC Consent Requirements for Industrial Sectors	February 01-03, 2023
66	Climate Change Impacts Assessment and its Responses	February 07-08,2023
67	Solid and Hazardous Waste Management	March 14-16,2023
68	Green Skilling For Sustainable Development	April 08, 2023
69	Environment Management: Science and Technology	May 09-13,2023
