

Dr. Shalini Dhyani at BioConserve Summit 2025: A Decade of Biodiversity Contributions

Dr. Shalini Dhyani, Principal Scientist, CSIR-NEERI was invited to the BioConserve Summit 2025, organized by Infosys Technologies Limited in Bengaluru.

Key
Highlights

- ❖ **Dr. Shalini Dhyani's Presentation:** Shared a decade-long body of work and knowledge products developed for the CSIR-NEERI Urban Campus in Nagpur, aimed at supporting biodiversity conservation.
- ❖ **CSIR-NEERI Urban Campus:** Focused on biodiversity conservation and restoration, with innovative knowledge products created for urban environments.
- ❖ **Visit by Key Figures:** Mr. Nandan Nilekani (Co-Founder of Infosys) and Mrs. Rohini Nilekani visited the CSIR-NEERI kiosk. They envisioned the urban campus as a significant space for biodiversity conservation.
- ❖ **Encouragement for Expansion:** Mr. Nandan Nilekani encouraged scaling up research, monitoring, conservation, and restoration efforts to other CSIR laboratories to amplify the impact.
- ❖ **Collaborative Platform:** The BioConserve Summit 2025 acted as a collaborative platform for knowledge sharing, bringing together experts from academia, research organizations, government bodies, and industry.

"Together, we can restore the balance of nature and ensure a sustainable future for generations to come."
