National Workshop Announcement

National Workshop – 2023 on Climate Change & CCUS

Bridging Disciplines for a Sustainable Future

29th November 2023 Venue: CSIR-NEERI, Nagpur, India

Organized by CSIR- NATIONAL ENVIRONMENTAL ENGINEERING RESEARCH INSTITUTE Nehru Marg, Nagpur -440020

About Conference

Climate change is a global crisis that knows no borders and affects every facet of our lives. It is a complex, multi-faceted intricate problem requiring a multidisciplinary approach for better understanding the magnitude of impacts to find mitigation measures. Climate change is no longer a distant future scenario but our present reality. The impacts of climate change are far-reaching, encompassing rising global temperatures, extreme weather events, sea-level rise, biodiversity loss, and socio-economic disruptions. Industrial emissions, a significant driver of climate change, have become a focal point of concern. The forthcoming "**National Workshop on Climate Change: Bridging Disciplines for a Sustainable Future**" addresses this pressing concern by bringing together experts and scholars from diverse fields to explore the intricate web of climate change, industrial emissions, and impact on life and property. This concept note outlines the importance of this workshop is planned to bring together academicians, researchers and policy makers to discuss cross-disciplinary collaboration, knowledge sharing, networking and idea exchange and awareness about the climate change related issues.

About CSIR-NEERI

As one of CSIR's premier Laboratories focussing on the environment, CSIR-NEERI plays a very important role in defining leadership in Environmental Science and Engineering for Sustainable development and has a nationwide presence with its five zonal centres located in New Delhi, Mumbai, Chennai, Kolkata and Hyderabad with its headquarters at Nagpur. CSIR-NEERI significantly contributes to policy making, environmental regulations and implementation through active participation in various National and State level expert committees constituted by ministries and regulatory agencies. CSIR-NEERI offers expertise in the domain of Strategic Urban Environment Management, Water and Wastewater Management, Solid and Hazardous Management, Air pollution, Climate Change, Cleaner Technology, Advance Materials, Energy and Resource management, Biotechnology and Genomics and Environmental Impact and Sustainability.

Thematic Areas

- 1. **Emission reduction and management:** Industrial greenhouse gas emissions, emission factors as per IPCC guidelines and air pollution and its impacts on climate change
- 2. Impact Assessment and Adaptive Actions: Impact assessment procedures, tools for projecting future impacts based on climate models and scenarios and vulnerability Assessment
- 3. **Modelling and Simulation Tools:** Climate change models and prediction tools, RS & GIS application for climate change mitigation and microclimate change prediction
- 4. **Mitigation Tools and Solutions:** Carbon capture, utilization, sequestration (CCUS), and other climate change solutions

Scientific Program

Poster Session

Participation is open is anyone involved in R&D, teaching, consultancy, planning for submission of posters. The participants must submit the posters within the thematic areas of the conference. The participants must preregister in the given link. **The last date of application = 22**nd **November 2023** <u>https://forms.gle/oynccfkxwKAkFRPG9</u>

Technical Programme

- Oral Presentations (Plenary, Invited talks)
- Poster session
- Panel Discussions

Plenary/Invited Speakers

Chief Guest Dr. Sukumur Devotta Former Director, CSIR-NEERI and Professor of Eminence, Anna University

Guest of Honour Dr M. M. Sarin INSA Senior Scientist, Physical Research Laboratory

Plenary Talk Dr. Rajashekhar Balasubramanian Professor, National University of Singapore

Organizers

Patron Dr. Atul N. Vaidya Director Chairperson Dr. Sadhana Rayalu Chief Scientist Organizing Secretary Dr. R. J. Krupadam Senior Principal Scientist rj krupadam@neeri.res.in | 7972397063 Convenor Er. Suvha Lama Convener

e-mail ID: <u>mwcc2023.neeri@gmail.com</u>

November 29 | 10.00 onwards

UNDER GRADUATE / GRADUATE STUDENTS Invited to Participate

National Workshop-2023 on Climate Change & CCUS

Poster Session

 Themes: GHG emissions, its reduction and management, Climate Impact Assessment, Use of Modelling and Simulation tools and Climate Mitigation
Prizes for Top 3 Posters
Pre-Registration required <u>https://forms.gle/Hnrf1JnjPEAe9meB6</u>
Last of Registration = 22nd November

Contact Information nwcc2023.neeri@gmail.com

Title of the poster

First Author¹; Second Author¹ Author Affiliation"

Relevant Climate Change themes/ topics:

Data

Methodology

Conclusions

National Workshop on Climate Change

Organized by Environmental Materials Division, Center of Excellence "Climate Change Research and CCUS"
